

M2250 In-Use and Visual Ring Indicator

Telephone In-Use and Ringing status for the M2250 Attendant Console can be detected by connecting an Algo 4100 AuxBox (Release 2 or newer) across the TN1 wire pair.

This provides a dry contact closure that can operate an Algo 1127P Visual Alerter (for desktop/office applications) or the Algo 1126P Strobe Light (for wider area high-intensity alerting).

Requirements:

- 4100 AuxBox
- 1127P Desktop Visual Alerter or 1126P Strobe Light
